

CONGRATULATIONS ON YOUR MICROSIGHT MICROSCOPE PURCHASE!

We are certain you will love the excellent image quality, ease of use, and durability. To make sure you have the most success using the MicroSight Microscope, we have included some helpful information below.

The MicroViewer software disc included with your microscope will work with all Mac and Windows computers and is compatible with Chromebooks when used as an external camera. A link to the most current version of MicroViewer for Mac or PC can be downloaded at

<https://southern sciencesupply.com/downloads/>

AN IMPORTANT NOTE: For permanent installation of MicroViewer software on your computer you must enter the Mac or PC serial number on the CD sleeve that came with your MicroViewer software CD (if you choose "Evaluate" you will be asked for the serial number after 30 days). Save your serial number in case you change computers. The serial number will work on multiple computers, and the serial number remains valid even if you download a new version of MicroViewer.

Should you need a more recent serial number, please use the ones below. Mac:

3Z7HORAHULHVKBBI

Windows: VSVC4EM00043583GY (Use zeros not O's)

If you have any questions, please let us know.
